

# LEAN TRANSFORMATION ACADEMY

A LEAN FOCUS INSTITUTION

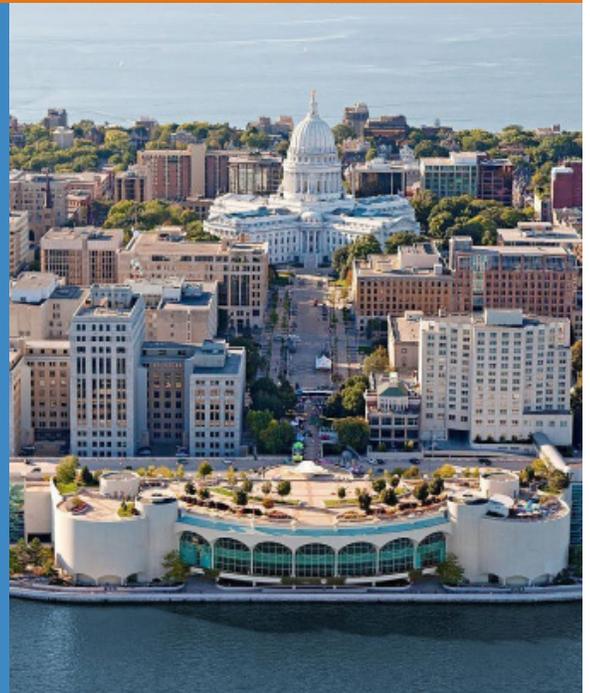

## PROFESSIONAL LEAN TRAINING THAT DELIVERS REAL RESULTS

Led by senior-level industry professionals with decades of Lean training experience, the Lean Transformation Academy provides an immersion of the most critical Lean Focus Business System™ concepts, strategies, and tools required to deliver real results. Our state-of-the-art training facility and hands-on curriculum enables attendees to engage with the material, gain a comprehensive understanding of the subject, and leave with proven Lean solutions they can apply directly to their own organization—transforming their business for the better, and for the long term.

## IN A BUSTLING CITY BRIMMING WITH LIFE

Lean Transformation Academy's brand-new facility is located in the heart of Wisconsin's bustling capital city, Madison. Famed for its esteemed University, Madison is also home to some of the highest-rated musical, athletic, and culinary experiences in the country. We embrace the city's culture and energy both inside and outside of the classroom; whether it's jumping around at a Badger game or taking a city-wide cheese curd tour, everyone is sure to find something that brings their Lean Transformation Academy experience to life.

# FEATURED COURSES

## BUILDING A LEAN BUSINESS SYSTEM

What's the secret behind successful companies like Toyota, Ford, Danaher, John Deere? They've each built a strong performance culture using a successful Operating or Business System rollout. This course teaches you how to build the systems necessary to create a culture that drives performance, sets expectations, reduces waste, and ultimately, delivers results.

## LEADING THE LEAN TRANSFORMATION

As a leader in an organization, you are the most critical driver of your team's direction, culture, and performance. Leading a full- or partial-scale Lean Transformation will take understanding, patience, and diligence. Through this course, you will be exposed to the most critical Leadership elements needed in order to adopt, implement, and sustain a thriving Lean culture.

## STRATEGY DEPLOYMENT

Using the famous Hoshin Kanri X-matrix format, you will learn unique and proven strategy deployment methodologies from former executive leaders. By the second day, you will know how to ensure that your strategic priorities are focused, aligned, actionable, and equipped with clear measurements to track progress and impact.

## PROBLEM-SOLVING & DAILY MANAGEMENT

Over this three-day course, you will learn proven Problem Solving (PS2) and Daily Management (DM) methodologies from former Lean leaders who have applied the same techniques to startups and Fortune 200 organizations alike. By day three, you'll know how to implement two of the most critical PS2 and DM business improvement processes within your own organization, and deliver real results.
