

Kaizen360 App

Complete Control of Your Kaizen Process

If your organization is committed to driving continuous improvement, Kaizen events are likely a tool that you use frequently. But have you considered that your Kaizen process, itself, may need improvement? Ask yourself:

- Do we have real-time data on all Kaizen events happening within the company?
- Do we know who is running Kaizen events, what they are hoping to accomplish, and what tools they are using?
- Do we have cross-event visibility into performance against established goals and metrics established during Kaizen events?

To help you unlock the full potential of your Kaizen events—and your teams—the Focused Solutions Practice Area of Lean Focus developed the Kaizen360 app.

A key component of the ResultWare™ suite of Power Apps, Kaizen360 is designed to help you manage and visualize the activities that occur before, during, and after a Kaizen event. Plus, it gives you centralized, 360-degree visibility into the nature and status of all Kaizen events happening in your organization.

Ideate problems to be solved.

Track completion of event pre-work.

Execute high-impact Kaizen events.

Sustain the improvements made.

Gain a consolidated view of all Kaizens.

ResultWare™

ResultWare™ is a suite of Power Apps that help to streamline any Lean process in your business. Whether you're planning a Kaizen event or creating a Strategy Deployment plan, all apps in the ResultWare™ suite are designed to give you the results you need to achieve your Lean goals.

Built on Microsoft's revolutionary Power Platform, your organization can seamlessly integrate any or all Power Apps into your organization without disrupting any of your existing software. And the best part, save over hundreds of thousands of dollars a year with no recurring subscription fees.

Kaizen360 App

Your Single Point of Truth

The Kaizen360 app can transform your Kaizen process on two, key levels.

FOR SINGLE EVENTS

It helps you develop a Kaizen Charter that outlines the appropriate pre-work, team members, and agenda. And, it helps you track the status of pre-work to ensure that all team members complete the pre-work prior to the event. This is critical to your ability to execute a successful Kaizen event.

ACROSS YOUR ORGANIZATION

It provides a comprehensive repository—The Kaizen Funnel—for viewing and managing all Kaizen events and progress toward identified goals. This virtually eliminates cumbersome, and often ineffective, administrative processes for Kaizen management.

Because Kaizen360 can be accessed on desktop or mobile, it's always available when and where you need it. Plus, it's easy to learn and use, meaning you'll be up and running in no time.
