# VISUAL PROJECT MANAGEMENT KAIZEN WORKSHOP

## WHAT IS A VISUAL PROJECT MANAGEMENT KAIZEN WORKSHOP?

*Are your new-product projects too often late?*

*Visual Management delivers projects on-time and to spec.*

Visual Project Management combines visually-rich formats, traditional accountability & ownership, and structured problem solving to deliver projects on time and to specification. People inside the team and out see the project through the same lens. In seconds, everyone knows if the project is on track or off, and if the team is gaining or losing ground. Structured Problem Solving ensures the team quickly identifies and closes gaps.
