TOTAL PRODUCTIVE MAINTENANCE KAIZEN WORKSHOP

WHAT IS A TOTAL PRODUCTIVE MAINTENANCE KAIZEN?

TPM is a system of maintaining and improving the integrity of production, safety and quality systems through the equipment, processes, and employees that each add value to an organization.

It involves the participation of all employees, from operators to managers, in maintaining and improving the equipment and processes.

TPM shifts the focus from reacting to equipment breakdowns to the prevention of breakdowns. Utilizing visual management, daily management, and standard work to drive problem solving and continuous improvement.

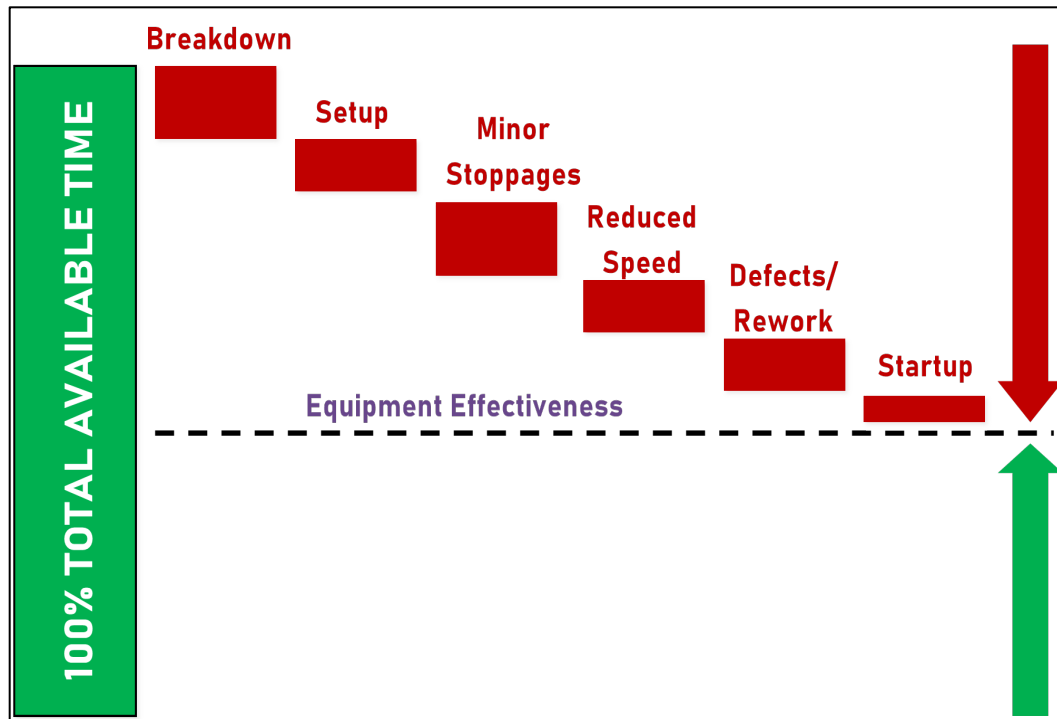

WHAT IS THE FOCUS OF TOTAL PRODUCTIVE MAINTENANCE?

Traditional Maintenance

- Departmentalized Structure
- Individual Repair staff
- Reactive to breakdowns
- Equipment is the maintenance department's responsibility
- Maintenance is a "necessary evil"

Total Productive Maintenance (TPM)

- Productive Team
- Multi-Skilled Employees
- Operator Maintenance
- Preventive Maintenance
- Operator ownership and pride in equipment by everyone
- Maintenance is Vitally Important
