

Visual Project Manager

Real-Time Visual Project Tracking Software

Stop Slips Before They Start

Fix project slips in real-time and reduce costly overruns with Visual Project Manager, the leading Lean project management software.

Project management can be challenging. Maintaining standards for multiple projects while meeting deadlines and budgets can be overwhelming. Fragmented and misaligned tools only give a partial view of project status, leading to production delays.

Focus on What Matters

Using Lean principles to remove unnecessary distractions, Visual Project Manager (VPM) is built with a focus on delivering real-time alerts so root causes of delays can be fixed immediately.

Enhanced Visibility

View the status of multiple projects in one snapshot, preventing slips and delays.

Real-Time Updates

Receive immediate notifications and updates, allowing for swift interventions.

Standardization and Alignment

Standardize processes and align systems and personnel through detailed Phase Gates.

Long-Term Improvement

Foster continuous process improvement and operational excellence within your team.

Powered by

The Foundation of Your Success

While many apps claim to streamline your workflow, Visual Project Manager stands out with its unique integration of the Lean Focus Business System™ (LBS™). Trusted by world-class companies, including those in the Fortune 1000, LBS™ consistently delivers proven results.

Visual Project Manager

Take Back Control of Your Projects

Visual Project Manager monitors project statuses in real time, pinpointing delays with red "Stop & Fix" signals. This allows you to quickly identify and resolve errors and delays proactively.

Intuitive Visualization

Track project progress with real-time visual updates.

Comprehensive Management Tools

Detailed analysis with Fever Charts, Buffer Lanes, and Pareto Graphs.

Customizable Templates

Adapt the app's transparent templates to fit your audit compliance needs.

Proactive Issue Resolution

Identify and address delays as they happen with the app's "stop & fix" alerts.
