

LBS4U™

A WORLD-CLASS BUSINESS SYSTEM THAT'S
CUSTOMIZED AND BRANDED JUST FOR YOU.

YOUR CUSTOMIZED SET OF TOOLS

To realize sustained, bottom-line success, the tools of your business system should carefully match your unique business, including its unique values, culture, and strategies. In short, your business system should be a custom fit for you.

YOUR BRANDED BUSINESS SYSTEM

To get the deepest level of buy-in from your people, the materials that represent your business system should look and feel like your brand, and your brand alone. The name of your system, the logo that represents it, the colors, shapes, and diagrams—all of these should directly represent your values, your processes, and your culture. This is the promise of **LBS 4U™**.

YOUR SOLUTION TO COSTLY PAIN POINTS

- Avoid generic solutions that don't meet your specific needs.
- Avoid the high costs of developing a system from scratch.
- Avoid using an outdated system that will waste resources.
- Avoid the bottlenecks and inefficiencies that occur when a system can't and won't scale.
- Avoid serious concerns regarding compliance, intellectual property, and risk management.

- Avoid the consequences of inconsistent, incomplete, and non-integrated training material.
- Avoid disruptions due to lengthy system implementation.
- Avoid the struggle to maintain brand identity across multiple systems or divisions.
- Avoid the lack of buy-in that occurs when a system doesn't match the look of the brand and the spirit of the culture.

LBS 4U™ is based on the tools of the **Lean Focus Business System™ (LBS)**. Trusted globally by the Fortune 1000 and beyond, **LBS™** rivals the world's most well-known and widely-adopted systems. It's revered for its many distinctive qualities, such as its holistic approach to addressing the full scope of business challenges, its sub-systems of integrated categories and components, and its continually improved set of transformational tools.

CASE STUDY: JB POINDEXTER & CO. (JBP), A LEADER IN THE VEHICLE MANUFACTURING INDUSTRY WITH OVER 7,000 EMPLOYEES AND \$2.4 BILLION IN REVENUE.

When JB Poindexter & Co. (JBP) came to Lean Focus, they knew their old production system wasn't working the way it should. It was outdated, used inconsistently, and holding them back. They needed a better way to get all their business units on the same page and running smoothly.

The solution: **LBS 4U™**.

We helped them select eight powerful tools from the Lean Focus Business System™, and together we built a custom solution. It was named the Poindexter Lean Production System (PLPS) and branded to harmonize with the JB Poindexter & Co. brand.

But building and branding the system was only part of the process. Our experts worked closely with the JBP team, providing training to make sure everyone was on board and using the PLPS every day. This new system didn't just improve operations—it created a culture where people were always looking for ways to improve, making their processes smoother and their work more efficient.

Now, JBP's business units run better than ever. Their teams are more connected, their processes are more efficient, and they've set a new standard for excellence in their industry.

Contact Lean Focus today to learn more about **LBS 4U™**, a world-class business system that's customized and branded just for you.
