MAKING MATERIALS FLOW WORKSHOP

WHAT IS THE MAKING MATERIALS FLOW WORKSHOP?

An intensive, hands-on, 3 day workshop in which participants follow a systematic, 10-step process to establish a lean material-handling system in the plant.

Topics addressed such as:

- What information should you include in the PFEP?
- How will you maintain the integrity of the PFEP?
- Where do you locate your purchased-parts market?
- What is the correct amount of each part to hold in the market, and how much space will be required to store each part?

MAKING MATERIALS FLOW DELIVERABLES:

- Designing the Plan for Every Part (PFEP)
- Developing a Purchased-Parts Market
- Designing the Delivery Route and the Information Management System
- Sustaining & Improving a lean material-handling system
